

Quiz App

Instruction

Create a program that simulates Quiz APP.

1. Print Logo - Quiz App
2. Ask for players and start with first player
3. For each questions a player can attempt two times, if first attempt is false the current player can attempt second time. But if the second time the answer is incorrect we switch players
4. If the answer is correct we switch players and the next question will be answered by next player
5. Finally, If there is not any question left we print out winner and ask if the want to see correct answers. If Yes we print the questions with answers if not we termiante the progrsm
